

Morris C1 Instructions

www.rotomudscrapers.com

Remove the 3/8" bolt and slide the new bracket over the spindle. Replace the bolt with the longer $3/8 \times 2.5$ " bolt provided. Make sure the ubolt is in place then tighten both to secure the base bracket.

Slide the scraper in the slot so that it is offset minimum 3/4" from the edge of the tire on a 4" wide tire like this one.

The zinc angle bracket with the slot is fastened to the "C" Channel with a 1.25" carriage bolt and nut.
